THE STOCK MARKET

the reaction in the market yester-day was due to nothing more than ception of the independent steels and the coppers, which have long been neglected, every group was in persistent demand.

It was also clear that yesterday's reaction in grains, cotton and the foreign exchange markets was the result of technical conditions, and that the position of these markets had thereby become improved. Wheat rose two cents a bushel, making its net advance for the week more than four cents, cotton rose on an average about \$1.50 a market demand sterling got very close to \$4.41 for a net gain of two

WEEK OF SILK BEGINS on Monday. For a whole week we will offer to you silks by the yard, silk clothing and silk accessories at special prices. We are doing this in accordance with a long established custombecause silk is generally accepted as the practical, the luxurious, as well as the popular and beautiful fabric of to-day. And it all dates back to the year 2640 B. C., when the Chinese Empress, Si Ling "encouraged the cultivation of the mulberry tree, the rearing of worms, and the reeling of silk.'
